Our planet is in good hands.

Yours.

Know the difference.  
Make a difference.

Greenware® cups are different. They're made entirely from plants, not petroleum, like traditional plastics. Even the plant resources used to make Greenware® can be replenished naturally each year.

If you care about reducing the use of fossil fuels and preserving our non-renewable resources, you're holding the right cup in your hand. Carry on. With Greenware®.

Visit [www.f-k.com/green](http://www.f-k.com/green) to learn about our *No Greenwashing Pledge* and for answers to your questions about Greenware® products.

**GREENWARE®**  
MADE FROM PLANTS
