100 Percent Plant-Based Greenware® On-The-Go Boxes Now Available

Crystal clear containers allow for multi-ingredient food combinations made for consumers on-the-go

Kalamazoo, Mich. (January 28, 2013) –Greenware® On-The-Go Boxes provide foodservice operators with an innovative solution to attractively present food for grab-and-go consumption and increased consumer appeal. The containers allow the flexibility to display an assortment of creative food combinations like fresh fruit and dip, hummus and crackers and sandwiches and salads.

Greenware® On-The-Go Boxes are made from plants, not oil. Available in three styles with one flat lid that fits all, Greenware® On-The-Go Boxes are available in 2-, 3- and 4-cell designs that are shrink-band compatible for tamper evident applications. Crystal-clear, durable and stackable, Greenware® On-The-Go Boxes have a compact, square shape to maximize cold case and shelf space. It's a solution that is good for your business and good for the environment.

Greenware® On-The-Go Boxes are the newest member of the Greenware® family, which includes cold drink cups in seven sizes and portion containers in three sizes. Matching flat and domed lids as well as cup inserts are available. Greenware® products are made from Ingeo™ biopolymer, a PLA resin derived entirely from plants. Greenware® is made in the U.S.A. and is 100% compostable in actively managed municipal or industrial facilities, which may not exist in your area. Not suitable for backyard composting.

Enhance your brand. Let your customers know you are making a difference by using Greenware® products – FREE Greenware® merchandising materials are now available to foodservice operators.

For all the ways Greenware® On-The-Go Boxes can help build your business, contact your Fabri-Kal sales representative today at 1-800-888-5054 or visit www.GreenwareUSA.com.
